Serial Nos.

Part B for June 22

SUBJECT.

Recommendations of the Special Finance Committee in the matter of the Medical Department

---

To, The Senior Surgeon, The Comptr &
The Finance Secy
No 7301-3/d 13-6-22

passed orders on the recommendations of the Finance Committee

WD 1888—GPB—16,825—23-7-21

Resolution No. 23.

MEDICAL DEPARTMENT.

The Senior Surgeon is in favour of the amalgamation of the Sanitary Department with the Medical and the abolition of the post of a whole-time Sanitary Commissioner and the District Health Officers as already recommended by the Committee. No allowance need in future be given to District Medical Officers for doing Sanitary work.

2. The Committee has already recommended that in regard to the maintenance of Local Fund Dispensaries, the local --- bodies concerned should be required to pay a moiety of the charges incurred by Government towards salaries of Sub Assistant Surgeons and supply of Europe medicines.

3. The Committee has discussed details with the Senior Surgeon and recommends the following retrenchments:-

(1) Palace Medical Staff. There are 2 Surgeons in the Palace Dispensary. The Committee agreeing with the Senior Surgeon considers that one of the officers may be withdrawn. These officers are given several kinds of allowances - Local Duty and Conveyance allowances. Only the conveyance allowance may be retained and the rest, cut out. The establishment contains two Sub Assistant Surgeons of whom one seems superfluous and may be reduced.

(2) The post of the Medical Officer on the Head Quarter establishment may be abolished as, in the opinion of the Committee, a permanent medical man to look after that establishment is not necessary. Whenever the Dewan goes on tour, the Senior Surgeon may depute an officer for the time being. Dr. Mylvaganam is agreeable to this proposal.

(3) The Senior Surgeon's proposal to place the Distric Medical Officers at Bangalore and Mysore in charge of the respective Epidemic Diseases Hospitals and to abolish the separate Assistant Surgeon may be approved.

(4) According to the sanctioned cadre, the posts of 8 District Medical Officers and of 1 Specialist in the Victoria Hospital are counted as Surgeons' Charges. The Senior Surgeon does not consider that an Officer of the Surgeon's grade, besides the Medical Officer, is necessary for the Victoria Hospital.

Five Assistant Surgeons are doing duty as District Medical Officers and a number of Surgeons are holding the charges allotted for officers of the lower grade. The Committee recommends that as a measure of economy the number of Surgeons may be reduced from 16 to 14 as against the two --- posts proposed to be abolished in Sub paras (1) and (2) supra. The Senior Surgeon wishes to retain the strength of Surgeons intact with a view to afford easy flow of promotion to the officers of the lower grade. The Committee does not concur in this view.

(5) Dr. Mylvaganam is of opinion that, in view of a separate cadre with scales of pay having been sanctioned for Lady Medical Officers, the sex allowance granted to the highly paid among them is unnecessary and may be cut @@ out. The Committee agrees in this view. The sex allowance need not be given to any class of women doctors, whether of the ---- superior or subordinate grades.

(6) The Senior Surgeon proposes that the system of giving scholarships in the Medical School may be gradually done away with, as private students are freely seeking admission into the School. The Committee accepts the suggestion and recommends that no new scholarships need be given in future. The

The present rates of allowances for the lecturers (Rs. 75/-) and Demonstrators (Rs. 50/-) are considered high and may be reduced as before to Rs. 50/- and Rs. 30/- per mensem respectively.

(7) The Committee suggests that the X-ray allowance of Rs. 50/- now given to two Surgeons, one at the Victoria Hospital and the other at the Krishnarajendra Hospital may be cut out.

(8) The Senior Surgeon states that no grants are given to the marginally noted institutions and that the provision made therefo

*	Kalasa Medical Fund ...	Rs. 960/-	) in the curren
	Mission Hospital, Channapatna	" 180/-	)
	Mrs. Slater's Hospital ...	" 360/-	) year's budget

may be deleted. The Committee also understands from him that the Lady in charge of the private Settihally Dispensary (Hassan District) is not a properly qualified Medical Probationer. But the grant of Rs. 600/- per annum is being continued on the ground that the Dispensary is serving a fairly large number of people and would have to be closed if the Government help were withdrawn This is not sufficient justification for the continuance of the grant. The Committee is of opinion that it should cease.

Sanction for the continuance of the grant of Rs. 2,400 per annum to the Koppa Medical Fund is due to expire on 1st August 1922. This grant is reported to have been originally sanctioned in 1899 on the ground that the Indian Medical Subordinates stationed at Koppa and Sollebile were not competent to cope with the Medical needs of the Planters and their families and that the North Mysore Planters' Association was in need of aid to maintain a European Doctor. Conditions have now changed. The Senior Surgeon considers that the grant should be withdran, as the Planters' Association have had the Government help for a long time and should be asked to make their own arrangements in future. The Committee strongly supports the Senior Surgeon's proposal.

(9) Dr. Mylvaganam suggests that as the Ayurvedic College

at

4

at Mysore is not doing any useful work, it may be closed. This proposal does not, however, commend itself to the Committee. The Institution may be developed when sufficient funds can be spared for the purpose.

(10) The Committee recommends that no duty allowance should be given to any Medical Officer who is permitted to take up private practice.

(11) The financial effect of the foregoing recommendations is a saving of about Rs. 36,000/- per annum as per particulars ---- furnished below:-

i. Abolition of 2 Medical Officers, one in the Palace Medical staff and one on the Head Quarter Establishment and reduction of the cadre of surgeons by two.

(550 + 40) x 12	..	Rs. 7,080
(450 + 40) x 12	..	" 5,880

ii. Cutting out the Local and Duty Allowance of the Second Medical Officer in the Palace. ... Rs. 1,200

iii. Abolition of one Sub Assistant Surgeon in the Palace

97 x 12	..	Rs. 1,114

iv. Withdrawal of Assistant Surgeon in charge of the Epidemic Diseases Hospital, Bangalore. Rs. 2,880

v. Abolition of Duty Allowance for Sanitary work to District Medical Officers of Mysore and Bangalore. Rs.1,200

vi. Abolition of sex allowance to Lady Medical Officers.

(2 x 50, 15 x 30, 5 x 10) x 12 Rs.7,200

vii. Reduction in the grant of scholarships and scale of allowance of lecturers in the Medical School. Duty Allowance of officers permitted to have private practice. Rs. 4,400

viii. Withdrawal of x-ray allowance to two Surgeons

50 x 2 x 12	Rs. 1,200
ix. Withdrawal of grants-in-aid	" 3,900
	Rs.36,054

Sd/- K.P.Puttanna Chetty,
Chairman, Special Finance Committee.

1st May 1922.

Note.

In their resolution containing their recommendations for retrenchments in the Medical Department, the Finance Committee advert to the desirability of the amalgamation of the Sanitary Department with the Medical, and the imposition on local ~~body~~ bodies of half the burden of the charges incurred by Government towards the salaries of the Sub Assistant Surgeons and the cost of Europe medicines. These matters have already been referred to by them in their resolutions Nos 8 and 11 respectively, which are being considered by Government and no reference is therefore necessary in here.

2. The Committee state that they accord their approval to the Senior Surgeon's proposal to place the District Medical Officers at Bangalore and Mysore, in charge of the Epidemic Diseases Hospitals in the respective places and the abolition of the post of the Assistant Surgeons directly in charge of them. Orders of Government approving this proposal are in course of issue.

3. They recommend that the cadre of Surgeons may be reduced by two in consequence of the abolition of two Medical Officers which they propose (1) on the Palace Medical Staff and (2) on the Head Quarter Establishment. It does not appear that in making these recommendations the Committee were in full possession of the facts relating to these charges. The posts of Medical Officers on Palace duty as well as the Head Quarter Establishment are listed on the Assistant Surgeons' cadre according to the orders on the reorganisation of the Medical Department and do not form part of the charges for which Surgeons are usually nominated although it happens at the present moment that both the offices in the Palace as well as the Head Quarters Establishment, before its recent revision, were in

charge of Surgeons. The Committee themselves note that five of the Surgeons' charges in in the Districts are manned by Assistant Surgeons and it would perhaps be a retrograde step if the Surgeons' cadre is reduced simply because, under the exigencies of public service, Assistant Surgeons have had to be placed in charge of posts demanding officers of higher status and qualifications. It may also be remarked that the cadre of Surgeons available for men has been reduced to 14 as 2 posts have been reserved specifically for lady Medical Officers in the orders of Government dated 27th July 1920 sanctioning a separate cadre for women Doctors.

4. Government have recently passed orders regarding the Head Quarter Medical Establishment directing that an Assistant Surgeon may be posted for this duty. In regard to the duty at the Palace, as two Surgeons are employed for the present, it may be considered whether one of the posts may not be listed as belonging to the cadre of Surgeons and the other to the Assistant Surgeons. This need not involve the increase in the cadre of Surgeons as Dr.Mylvaganam in his evidence before the Committee considers that an officer of the Surgeon's grade in addition to the Medical Officer, is not necessary for the work in the Victoria Hospital.

5. The Committee further recommend that the officers posted for these special duties are given several kinds of allowances and that they should all be withdrawn except the conveyance allowance. Government have recently withdrawn the conveyance allowance that was hitherto granted to the officers in charge of the Head Quarter Medical Establishment, giving only a duty allowance of Rs.50. In the same manner a duty allowance of Rs.100 may be granted to the officers posted for Palace duty. This duty allowance was first granted in accordance with the Specific directions of His Highness contained in

7

U the latter of the Private Secretary dated 7th April 1906 The grounds on which the allowance was sanctioned appear to be quite as conclusive now as they were at the time they were first recommended.

6. The committee suggest that one of the two officers posted for Palace duty may be retrenched. It may be observed that two officers have been on duty there for a very long time and it is a matter for consideration whether the work which is now considerably increased in the course of time, can be discharged satisfactorily by one officer. The Committee endorses the recommendation of the Senior Surgeon that in view of a separate cadre sanctioned for Lady Medical Officers, the sex allowance granted to them may be withdrawn. This is expected to result in a saving of Rs 7800 per annum. The sex allowance has been withdrawn in the case of Dr.Jhirad who has recently been confirmed and has been reduced from Rs.15 to Rs.10 in the case of Lady Sub Assistant Surgeons whose pay was made more attractive. It is for consideration whether the sex allowance can be entirely abolished in regard to other officers.

W

7. The Committee suggest that the system of giving scholarships in the Medical School may be gradually done away with as private students are freely seeking admission into the school. Some steps in this direction were taken by Government in June 1921 when the number of stipends to male candidates for training as Sub Assistant Surgeons was reduced from 35 to 8 and the cost of only one half of the books required, was supplied to first year students. The expenditure on the school averages at present something like Rs.50,000 per annum of which about Rs 39,000 was spent on scholarships during the current year. As the school has become highly popular and the object with which the scholarships were instituted may be considered to have been realised the scholarships may perhaps be discontinued from next year.

Z

8

8. The Committee suggests that the allowances for lecturers and demonstrators may be reduced from Rs.75 and Rs.50 to Rs.50 and Rs.30 respectively. They would also withdraw the X-ray allowance of Rs.50 now given to two Surgeons, one at the Victoria Hospital and the other at the Krishnarajendra Hospital. It may be observed that this allowance was specifically ordered to be continued in the order re-organising the Medical Department in view of the arduousness of this duty.

9 They would also withdraw duty allowances from officers who are permitted to take up private practice. In the orders passed on the allocation of the officers of the Medical Department in December 1918 and also more recently Government have determined which of the officers should be prohibited from private practice. This is mainly due to the fact that the whole time of such officers was considered indispensable for Government service and that they could not be spared for attendance on the public without serious inconvenience to their official duties. The duty allowances are usually sanctioned for arduousness of the work imposed on an officer and it would be a hardship to withdraw such allowances from officers simply because they may not have been prohibited from private practice. The matter seems to deserve some consideration as debarring Medical Officers from private practice would restrict chances for Medical Aid available to the general public who may be willing to pay for it.

10. The Committee recommend that certain grants in aid paid to Aided Medical Institutions in the state may be withdrawn. This recommendation is estimated to effect a saving of Rs.3,900 per annum. The largest grant namely Rs.2,400 per annum is made to the Koppa Medical fund in aid of two hospitals, one at Koppa and the other at Sollebyle, to each of which a sum of Rs.100 per month is granted by Government. This grant in aid was first granted in

9

August 1918 to enable European planters to employ an English Doctor as the Sub Assistant Surgeons in charge of the Koppa and Sollecyle dispensaries were not supposed to be competent to render Medical Aid to European P lanters and their families. This grant is being continued year after year up to the present moment although on several occasions its withdrawal was contemplated by Government. In 1917 the District Committee recommended that it may be withdrawn after one year, after a dispensary had been started at Balur. It is no doubt true that the grounds on which this grant was sanctioned exists no longer. Efficient Medical Officers have now been placed in charge of the Dispensaries at Koppa and Sollebyle, the latter Station being listed in the charge of Assistant Surgeons. The Planters' Dispensaries are managed only by Indian Medical men possessing only the qualifications of a Suo Assistant Surgeon and not by European Doctors. Medical facilities have increased largely in the Malnad and although the Dispensaries are temporary in character and ran under the Malnad Improvement Scheme, it is maraly conceivable that they will not be continued as a permanent feature of Medical ~~demonstration~~ administration in view of the admitted need for increased medical relief in that part of the State. It may be contended, therefore, that sufficient grounds exist for the withdrawl of the grants in future but it is very doubtful if it will result in any saving to Government as the public who now resort to it will inevitably be thrown upon the Government Institutions for assistance in future. It should be remarked also that the grant that is now paid is only a portion of the cost of the Institutions. The same remarksalso apply to the recommendation for the withdrawl of the grant of Rs.80 that is now paid towards Kalasa Medical Fund. There is a Government Dispensary at Kalasa itself and Mudgere is listed in the charge of Assistant Surgeons. This grant for Kalasa Medical Fund was first sanctioned temporarily for one year and is being continued

10

year after year.

11. The grant ~~@@~~ to the Mission Hospital at Channapatna of Rs.180 per annum may perhaps be withdrawn as the institution has ceased to exist, and the sum of Rs.30 per month sanctioned to Mrs.Slater at Chickmagalur towards the pay of a compounder and cost of medicines, may perhaps also be discontinued. This was first recommended at the instance of the Malnad Improvement Committee and sanctioned by Government in November 1914. It is understood that the amount has never been drawn by Mrs. ~~Slater~~ Slater.

12. The Committee also recommend that the grant of Rs.600 per annum sanctioned to Settihalli Dispensary, Hassan District may be withdrawn as the Lady in charge is not a properly qualified Medical Practitioner. This Institution is run by a Roman Catholic nuns and the grant has been continued since 1871.

13. The Senior Surgeon recommends that the sum of Rs.4000 now spent on the Ayurvedic School at Mysore may be withdrawn as the Institution is, in his opinion, serving no useful purpose in consequence of the fact that no hospital or laboratory is attached to the School to afford practical training to the students. It is also stated that out of 15 students in the school only 6 are Mysoreans and the rest are from outside the State. He considers that the students who come to the ~~class~~ School are not likely to benefit by the tuition and that the management of the School is not very efficient. The Committee, however, are not disposed to agree with the Senior Surgeon but would let the school to continue on its present footing until funds are available for its improvement.

14. The points which arise as a result of the recommendations of the Committee are as follows:-

(1) Whether the cadre of Surgeons may be reduced by 6 in consequence of the fact that some of the posts listed for Surgeons are being manned by Assistant Surgeons.

(2) Whether one of the Officers on Palace Duty may be

11

abolished and the allowances available to the other restricted only to the conveyance allowance and Head Quarter Establishment entirely abolished, or

(3) Whether two Officers may be allowed to remain on Palace duty and all allowances excepting the duty allowance of Rs.100 per month be withdrawn and the orders recently passed regarding the Head Quarters Medical Establishement be allowed to remain unaffected.

(4) Whether Second Surgeon, in addition to the Medical Officer, for duty at the Victoria Hospital may be withdrawn and one of the posts on Palace duty listed among the Surgeons' charges.

(5) Whether the sex allowance sanctioned for Lady Medical Officers be withdrawn.

(6) Whether the scholarships may be discontinued in the Medical School from next year and the allowances for lecturers and demonstrators reduced to Rs.50 and Rs.30 per month respectively.

(7) Whether X-ray allowance of Rs.50 granted to Surgeons may be withdrawn.

(8) Whether officers permitted to take up private practice may be declared ineligible for duty allowances.

(9) Whether the grants in aid sanctioned to the following Institutions may be withdrawn.

1. Koppa Medical Fund.	Rs.3400 per annum.
2. Kalasa Medical Fund.	960 "
3. Mission Hospital at Channapatna.	180 "
4. Slater's Hospital	360 "
5. Settihalli Dispensary.	600 "

15. With a view to effect improvement in the revenue, the Committee recommend that fees may be levied in all Hospitals and dispensaries in the State as in the Cities of Bangalore and Mysore and Robertsonpet and also suggest that charges for admission to special wards in Major institutions may be doubled i.e. from Rs.2 and 1 to Rs.4 and 2 respectively. In his letter to the Secretary, Special Committee, the Senior Surgeon recommends that fees may be levied in District Head Quarter Hospitals. He estimates that the increase in revenue by levying fees in District Head Quarter Hospitals and doubling admission charge for special wards would amount to about Rs.50,000 per annum. As a beginning fees may perhaps be raised in District Head Quarter Hospitals before the system is introduced in all the Institutions of the State.

Subject:-

Recommendations of the Special Finance Committee in regard to the Medical Department.

In addition to the proposals for the amalgamation of the Medical and Sanitary Departments and for requiring the Local Bodies to pay a moiety of the charges incurred by Government towards the salaries of Sub Assistant Surgeons in charge of, and the cost of Europe Medicines supplied to, Local Fund Dispensaries, the Special Finance Committee have, in consultation with the Senior Surgeon, recommended the following - retrenchments in the Medical Department calculated to result in a saving of about Rs.36,000 per annum;-

(i) Abolition of two Medical Officers, one in the Palace Medical Staff and one in the Head Quarter Establishment and reduction of the cadre of Surgeons by two .. Rs.12,960;

(ii) cutting out the Local and Duty allowance of the second Medical Officer in the Palace ... . Rs. 1,200;

(iii) abolition of one Sub Assistant Surgeon in the Palace . Rs. 1,114;

(iv) withdrawal of Assistant Surgeon in charge of the Epidemic Disease Hospital, Bangalore Rs. 2,880;

(v) abolition of Duty allowance for Sanitary work to District Medical Officers of Mysore and Bangalore .... Rs. 1,200;

(vi) abolition of Sex allowance to Lady Medical Officers Rs.7,200;

(vii) reduction in the grant of scholarships and scale of allowance of Lecturers in the Medical School and the abolition of the Duty allowance of officers permitted to have private practice ... ,,, Rs. 4,400;

(viii) withdrawal of the X Ray allowance of two Surgeons Rs. 1,200;

(ix) withdrawal of grants-in-aid to the Kalasa Medical Fund, the Mission Hospital, Channapatna, Mrs.Slater's Hospital, Settihally Dispensary (Hassan District) and the Koppa Medical Fund. ... ... Rs. 3,900;

Total Rs. 36,054

The

2. The recommendations of the Committee relating to the amalgamation of the Medical and Sanitary Departments and the charges of the Local Fund Dispensaries have already been considered by the Council and the papers regarding the former submitted to His Highness.

3. The other proposals set forth above were considered at the last meeting of the Council and the Council are of the following opinion in respect of each of the Committee's proposals:-

1 & 3. Palace Medical Staff.	The question is under consideration.
Head Quarters Staff.	A reduction has been effected.
2. Allowances of Palace Medical Officers.	Cannot be abolished for the reasons stated in para 2 of Government order dated 13th July 1918.
4. Withdrawal of Assistant Surgeons in charge of Epidemic Diseases Hospital, Bangalore.	Action already taken.
5. Abolition of duty allowances for Sanitary work to District Medical Officers of Bangalore and Mysore.	Action already taken.
6. Abolition of Sex allowances.	May be abolished in the case of future appointments.
7. Medical School.	Number of scholarships to male pupils may be further reduced from 8 to 4. (The present holders to enjoy their scholarships till the end of their courses). The allowances to lecturers are not capable of reduction. None of the duty allowances sanctioned in the Government Order of December 1916 can be abolished, as they have been given on special grounds.
8. X Ray allowance.	This cannot be abolished.
9. Grants-in-aid.	The grants to the Channapatna Hospital and the Slater's Hospital have been discontinued. The grants to the Koppa and Kalasa Medical Funds and to the Suttihalli dispensary may be continued, subject to examination of the system under which they are utilised.

10. Question of reducing the cadre of Surgeons is reserved for further examination.

11. No change in the scale of fees for out-patients or extension of the system of charging fees need be made for the present. The scale of fees in special wards may be revised."

Rs.36,054.

RECOMMENDS OF THE GOVERNMENT OF FIJI REGARDING THE

MEDICAL DEPARTMENT.

General Sir Ian Hamilton's Despatch

G.—81.MO.

Subject for consideration

---

and---

Recommendations of the Committee appointed to report on

the Medical Department

Order Thereon

Heard as the proposal for the amalgamation of the Medical and Sanitary Departments and for requiring the Local Bodies to pay a moiety of the charges incurred by Government towards the maintenance of Assistant Surgeons in charge of, and the carrying out preventive measures in, the Local Bodies' districts, the Committee are pleased to. Local Fund Dispensaries, the Specific Finance Committee recommended the following retrenchments in the Medical Department estimated to result in a saving of about Rs.30,000 per annum:—
